Terms and Conditions:

6-Month Print Head Warranty: The Otter DTF System comes with a 6-month warranty on the print head, covering manufacturer defects. This warranty does not cover issues arising from improper use, lack of maintenance, or the use of non-recommended inks and materials.

On-Site Installation: On-site installation is available as an optional service at an additional cost.

Training and Support: On-site training is included with the purchase of the Otter DTF System. Over-the-phone training and technical support are available during normal business hours. Additional training sessions can be arranged at an extra cost.

Maintenance Requirements: Regular maintenance is required to keep the Otter DTF System in optimal condition. Failure to perform recommended maintenance may void on the system and its print heads warranty.

Return Policy: The Otter DTF System is non-returnable once used. Please ensure the system meets your needs before purchase. For defective units, please contact our customer support team for assistance.

Liability: The manufacturer and distributor are not liable for any damages resulting from improper use, installation, or unauthorized modifications of the Otter DTF System.
