

Recommended Quantities of OtterPro DTF Film and Consumables to Start the OtterPro DTF System

Test Only:

For 1 roll of 42cm x 100m OtterPro DTF Film:

1. 5KG Hot Melt DTF Powder
2. 3L White DTF Ink
3. 500ml each of C, M, Y, K colors

For 1 roll of 30cm x 100m OtterPro DTF Film:

1. 4KG Hot Melt DTF Powder
2. 3L White DTF Ink
3. 500ml each of C, M, Y, K colors

For Mass Production:

For customers placing orders for the first time and without particularly high-quality requirements for the printed images, it is recommended to prepare at least 2 months' worth of production, which includes:

- 140KG Hot Melt DTF Powder
- 40 rolls of 42cm x 100m DTF Film
- 110L White DTF Ink
- 5L each of color DTF ink (C, M, Y, K)

If the transportation time is too long and the customer's order frequency is low throughout the year, preparation for 3 months is advisable:

- 210KG Hot Melt DTF Powder
- 60 rolls of 42cm x 100m DTF Film
- 166L White DTF Ink
- 8L each of color ink (C, M, Y, K)

Notes: To ensure vibrant DTF printing results and maintain your OtterPro DTF Printer in optimal condition, we highly recommend using OtterPro materials and consumables.
